MOON
VILLAGE ASSOCIATION

Dr. Giuseppe Reibaldi, M.A
President
John C. Mankins
Vice President

University of Tokyo – 4 March 2018

What is the Moon Village?

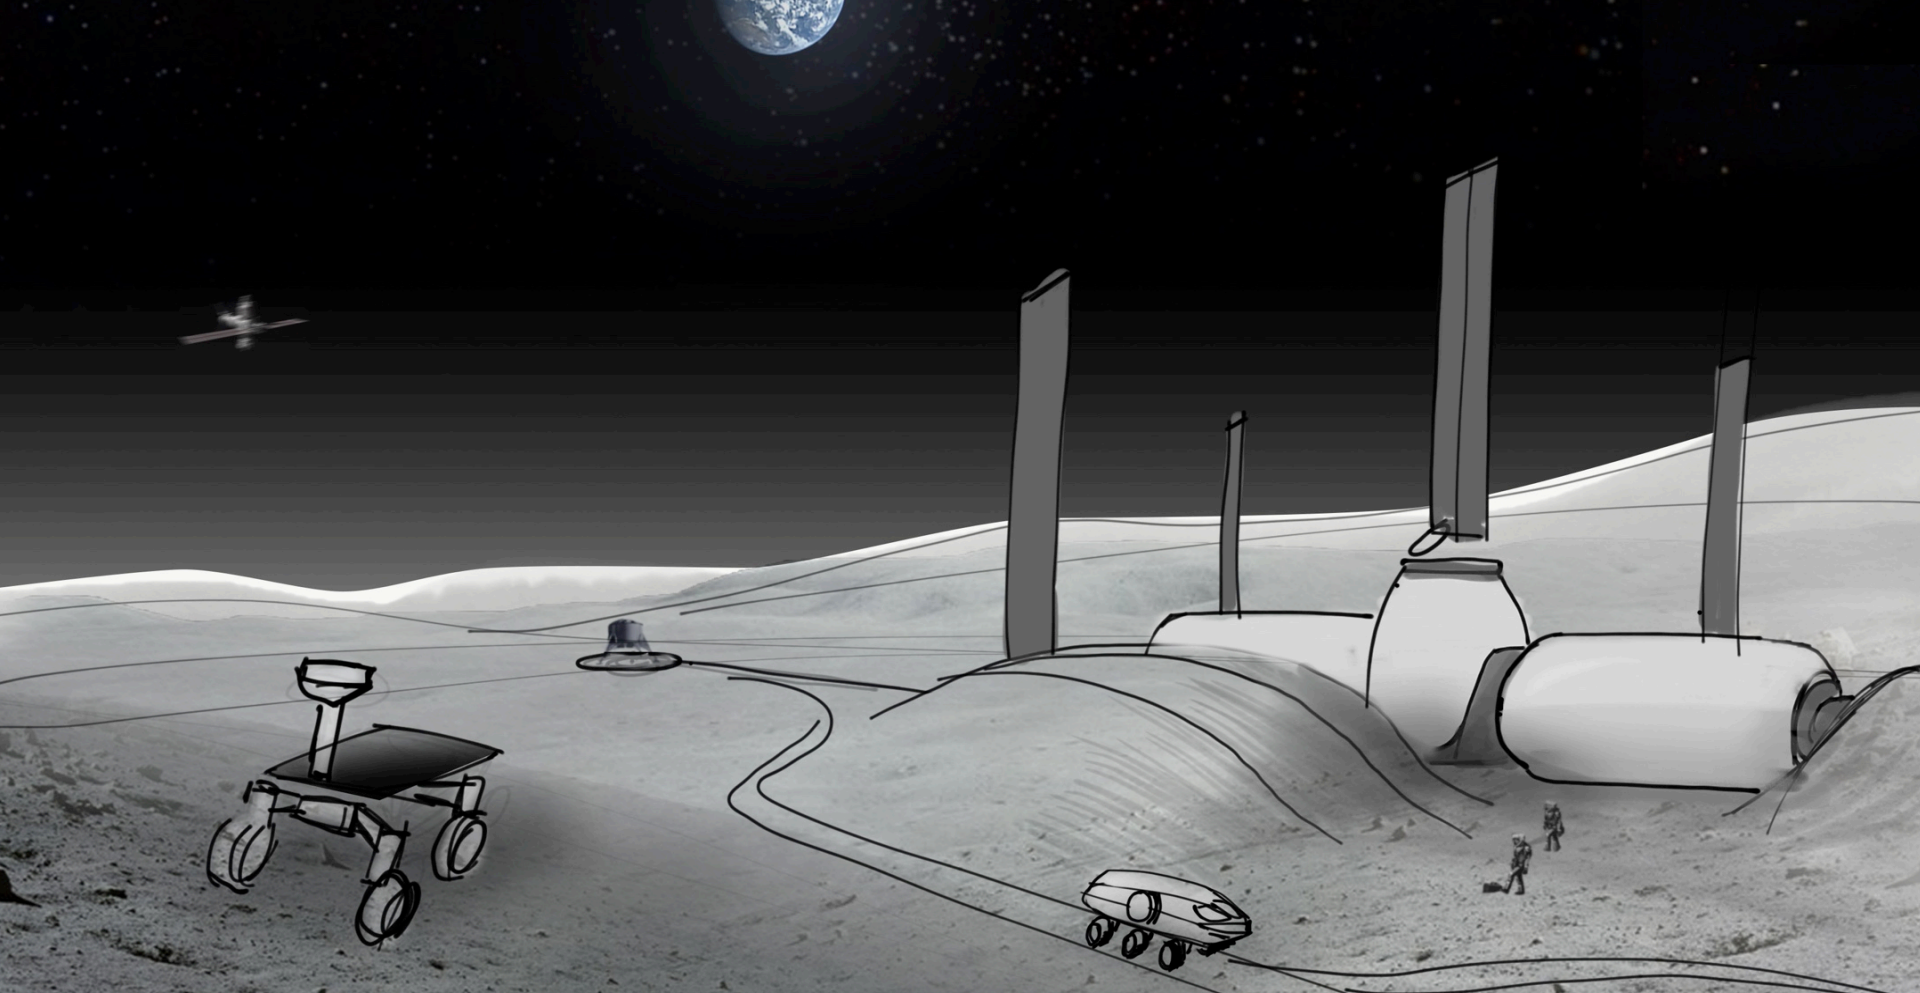

THE MVA IS …
- An ensemble of efforts worldwide, governmental, private and general public

- Aiming to explore and use the moon resources

- In a sustainable manner

THE MVA IS <u>NOT</u> …
- An ISS on the Moon

- A literal village

- A single science facility

The Moon Village Association

The Moon Village Association (MVA) was created in June 2017, to foster the implementation of the Moon Village

www.moonvillageassociation.org

Mission Statement

MVA Provides a Forum for Development of the Moon Village
for Industry, government, Space agencies,
International organizations, NGOs, Public at large

Individual Members

Institutional Members

MVA serves as catalyst stimulating a virtuous cycle of investments
for the development of a lunar economy
aiming to settle humankind on the Moon
as well as cultural inspiration for future generations

How to Reach these Goals ?

Creating permanent *fora* through Working Groups:

- Global capabilities/architecture
- Economy/Financial/Business
- Innovative Cooperation Mechanisms
- Cultural Impacts
- Outreach

Creating national/regional networks in different parts of the world.

At Present: China, Africa, Hungary, Cyprus, South America, Japan, Russia
Coming: India, Others…

Creating the Moon Market between Members

Creating a network community

Involving Non-space industries, organizations and public-at-large

Organizing dedicated events such as global or regional workshops
