

# Reform of TSC's Innovation Promotion Systems

## -Building Capability of Strategic Intelligence in NEDO-

UEKI Kenji  
Director General,  
Technology Strategy Center (TSC),  
New Energy and Industrial Technology  
Development Organization (NEDO), Japan  
May 28, 2024

# Bridge Between Policies and R&D Projects

Technology Strategy Center

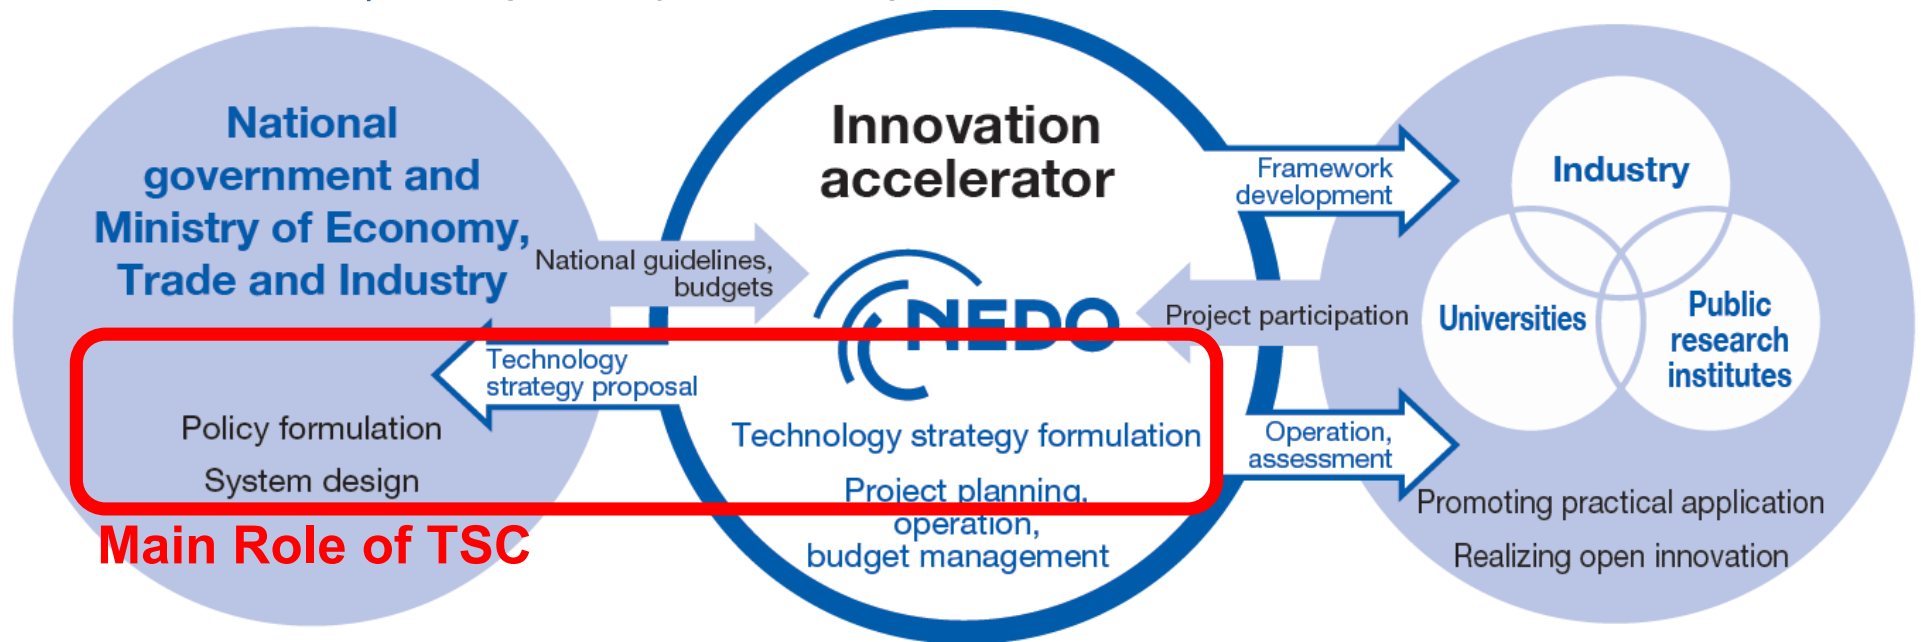

■ **New Energy and Industrial Technology Development Organization (NEDO) Organization** National Research and Development Agency

**Mission** 1. Addressing energy and global environmental problems  
2. Enhancing industrial technology

**Established** 1980

**Budget** 182.8 billion yen (FY2024, ca. \$1.2 billion) + Additional FUNDS

**Nbr of staff** 1,525 (as of April 1, 2024)

101 Technology Strategies

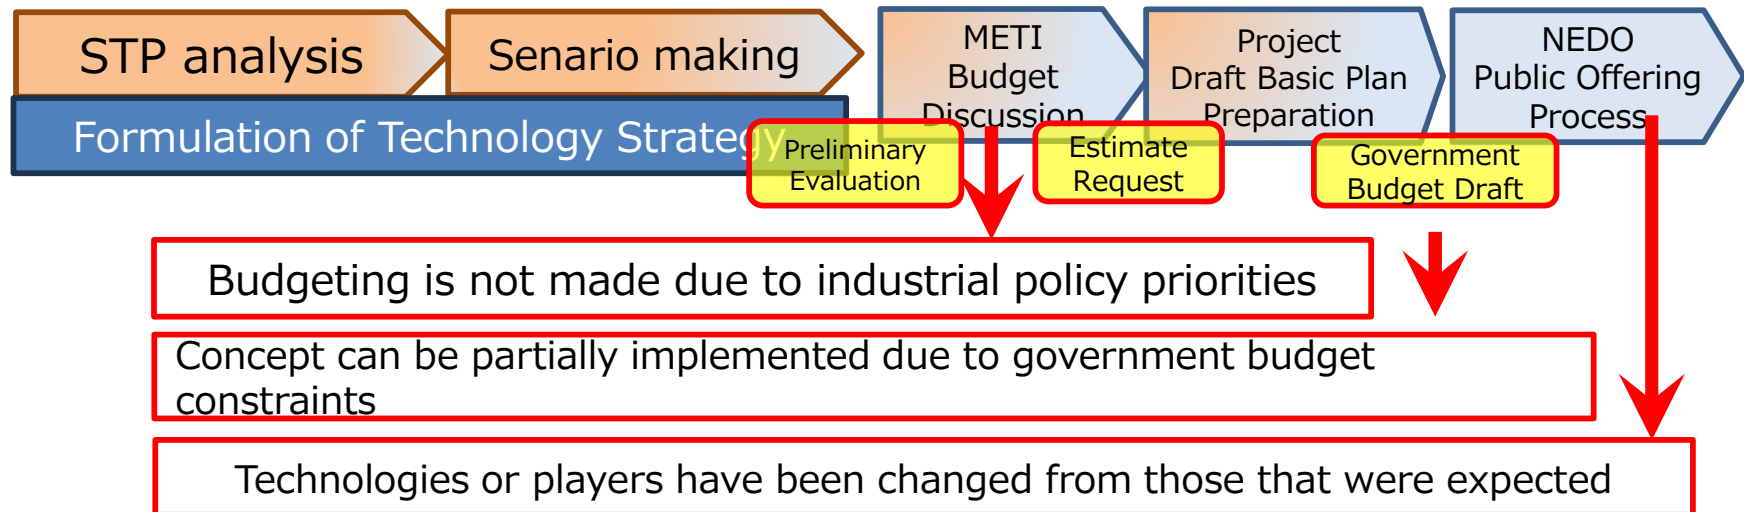

159 projects

83 reports

- NEDO plans and drafts national projects based on TSC's Technology Strategies.
- Policy measures to solve social issues and R & D project initiatives proposed in the technology strategies are not all realized in the government's budget request process and later processes.

## More than 2 years before the Project starts

## A year before the Project

**Project Duration: 5-10 years**

project execution

social implementation

the environment surrounding the target field is changed and the concept needs to be revised

It does not lead to policy measures except for technological development, such as development of regulations and rules, or to concrete measures for government, industry, and private companies as the actors to build the ecosystem

## Contribution to the Entire Life Cycle of NEDO Projects
